

Your weakening of the regulations concering Broadcast Ownership was a blatant slap in the face to the American people, and I just want you to know that your lies were plainly seen... You called us paranoid and crazy while you handed more money and more power to the few in the backrooms who decide what Americans are and are not interested in. How dare you hide behind diversity, and progress while you provide the Media Barons with the license to consume all they may.

My thanks and appreciation to Michael Copps and Jonathan Adelstein for standing up and doing the right thing. A special "boo" to Kathleen Abernathy- your condescending nature was *especially* nauseating.

You have done us a great harm today, and that is truly sad.
